

WHO WE ARE

OCCAM HEALTH is an independent hub service organization that helps patients and their physicians find and gain access to the right resources and therapies on behalf of our biopharma clients.

Our dedicated, passionate people are our greatest asset. Our team shows genuine concern for patients and their needs, and they possess the necessary determination to find a fair and balanced workaround to any roadblock.

Of course, technology plays a critical role in our services. But it's only when we combine the skills and knowledge of our people with the time-saving, efficient practices of our technology platform that patients receive the best experience possible.

WHAT WE DO

Patients deserve easy to use and easy to understand healthcare services. OCCAM HEALTH ensures they receive it, despite the rigorous legal and regulatory environment.

To that end, we seek simple and logical solutions to problems. We avoid complexity in the development and delivery of products and services.

WE FOCUS ON

Improving access

Care coordination for specialty products

Speed to therapy

Real-world evidence insights for manufacturers

As a result, we deliver seamless coordination of therapy via a high-touch, conflict-free, and agile hub solution—while patients and their physicians receive timely, compassionate attention throughout the care journey.
